PRESS RELEASE

ASL Announces COVID-19 Assistance for Local Businesses

Free Monthly Subscriptions for Software to Manage Employees Working Remotely

Toronto, October 26, 2020: ASL today announced a special program to assist small and medium-sized businesses in Ontario with access to its award-winning Cloud HR Software. The software will enable companies to easily manage employees, in any language, from anywhere at any time using any available device such as a smartphone, tablet or workstation PC. Companies will be able to use the software free-of-charge from monthly subscriptions.

ASL's HireToRetire Software allows companies to manage all facets of the employment process in a completely contactless environment including employee onboarding, administration, compensation & benefits, training & development, health & safety, time & attendance, payroll and more. The software is protected by enterprise-grade security that is audited by global cybersecurity firms and is hosted in Canada to protect employee privacy. A free myHR app is also available for Apple and Android devices from the App Store and Google Play respectively.

ASL is a leading provider of HR Software and Professional Services. Founded in 1989 in Toronto, the company's technology is used today in over 49 countries globally and by organizations in virtually every industry and sector. To learn more, visit us at www.aslconsulting.com
